

PEER SUPPORT SPECIALIST VALUES, ETHICS, AND BOUNDARIES

JANUARY 31, 2024

LISA C. GOODALE, MSW

My CPSS/Clinician ethics and boundaries

Consider these questions:

- What professional and/or agency boundaries do I value most highly?
- What personal boundaries do I have that may be more stringent than my professional or agency boundaries?
- What personal boundaries do I have that may conflict with my professional or agency boundaries?

Example boundary statements

Your statements might look something like:

I really value this professional or agency boundary(ies): _____

I am comfortable/not comfortable being in this situation with a current client/a former client (or with professional colleagues): _____

I am comfortable/not comfortable sharing this information about myself with a current client/a former client (or with professional colleagues): _____

It is a challenge for me to abide by this (these) professional or agency boundary(ies): _____

or something else that works for you!

Write your own boundary statements
